

Memory of the Future (Stuart Price Extended Mix)

Pet Shop Boys

You seem to be inevitable to me
Like a memory of the future
I was and will be with you Over and over again
I keep tasting that sweet Madeleine
Looking back of my life now I'm in
Asking if not later then when It's taking me all of my life
It's taking me all of my life to find you
It's taking me all of my life
It's taking me all of my life to find you
You, you, you, you You unlock the past,
So many scenes moving fast
At last the right conclusion
Or at least a sweet illusion Over and over again
I keep tasting that sweet Madeleine
Looking back of my life now I'm in
Asking if not later then when It's taking me all of my life
It's taking me all of my life to find you
It's taking me all of my life
It's taking me all of my life to find you You seem to be a perfect memory
Of the future, reminding me
How life is meant to be Over and over again
I keep tasting that sweet Madeleine
Looking back of my life now I'm in
Asking if not later then when It's taking me all of my life
It's taking me all of my life to find you
It's taking me all of my life
It's taking me all of my life to find you It's taking me all of my life
It's taking me all of my life to find you
It's taking me all of my life
It's taking me all of my life to find you It's taking me all of my life
