

California's Lonely (Acoustic Version)

Smile Empty Soul

Wait, it's coming to me
I'm starting to see, so very clearly
Why I'm never happy?
Because California's lonelyCalifornia's lonely
California's lonely
Just like the rest of the worldI always feel sick, so hard to breathe in
My head is spinning or am I the only
One that's always lonelyCalifornia's lonely
California's lonely
Just like the rest of the worldCalifornia's lonely
Just like the rest of the world
California's lonely
Just like the rest of the worldI'm so cold in this heat
I'm so alone in these crowded streets
'Cause no way I'm the only
One that's always lonelyCalifornia's lonely
California's lonely
Just like the rest of the worldCalifornia's lonely
Just like the rest of the world
California's lonely
Just like the rest of the world
