

Handle It

Ann Marie

What if I cheated?
What if I was out creeping?
Disappeared for the weekend, Don't let you know when I'm leaving
What if I was disloyal?
Put all them niggas before you, but I still claim that I'm for you
Don't say I'm sorry just spoil you,
see what if I gave your pussy away let another nigga
see how it taste, can you imagine it all on his face
Go through my text and he calling me bae, (YEAH)
What if I'm choosing?
Got you out here looking stupid, then I tell you I can't do this
Tired of the fighting and snooping
If I pulled a you on you
What would you do?
If i pulled a you on you
What would you do?
Tell me baby
Can you handle it? (Can you handle it)
If you knew what I knew (Knew what I knew)
To do what you do (Do what you do)
Baby can you handle it? (Can you handle it)
If I was playing your game (Playing your game)
And laid where you lay (Lay where you lay)
And sat on his face
Tell me can you handle it
Always get lit, treat you like shit
I don't appreciate the things you did,
if I came to you and told you I had a kid
Would you still stick with me?
Or would you up & split?
If I done to you all the things you done to me
Tell me would you stick around?
Boy if you were me
you couldn't handle it,
boy I guarantee so tell me why the
fuck do you expect that shit from me
If I pulled a you on you (I don't think you can handle it)
What would you do? (But you put me through the same shit)
Tell me baby

Can you handle it? (Tell me, tell me)
If you knew what I knew (Tell me)
To do what you do
Baby can you handle it? (Tell me)
If I was playing your game (Tell me)
Laid where you lay, Sat it all on his face
Can you handle it? (Can you handle it)
Handle it, Handle it, haaaaaaaandle it
