Say What You Mean

Ellie Campbell

Say what you mean
Ooh ooh yeah yeah
Say what you mean
Yeah yeah yeah
One day, I was your girlfriend
Next day, you didn't know me
How could you ever pretend
You don't feel a thing
Monday, you're holding my hand when
We are, sitting alone
Until, all of your friends
Show up and you let go
Say what you mean(say what you mean)
And mean what you say
If you really love me(love me,love me
Then don't be that way(no,no)
First you say I'm your girl
The you push me away
Say what you mean(say what you mean)
And mean what you say
One night, you whisper you love me
You say, the sweetest things
But you lie about us
Why do you care what they think
Do you, know what it feels like
Each time it tears me apart
Everytime you turn away
It's an arrow through my heart

Say what you mean(mean,yeah)
And mean what you say
If you really love me(if you love me)
Then don't be that way(no,no)
First you say I'm your girl
The you push me away
Say what you mean(say what you mean,mean)
And mean what you say
You better stop this game that you've been playing baby
It's time you showed me,showed me some respect

Yeah yeah you'd better think about what you've been saying
Gotta know what you've been thinkin,gotta know just
Where I stand
Say what you mean(yeah)
And mean what you say
If you really love me(love me,love me)
Then don't be that way(don't you be that way)
First you say I'm your girl
The you push me away(don't you push me away)
Say what you mean(say what you mean)
And mean what you say
Say what you mean(oh yeah)
And mean what you say
If you really love me(if you love)
Then don't be that way(don't you be that way)
First you say I'm your girl
The you push me away
Say what you mean(say what you mean)
And mean what you say
Say what you mean
And mean what you say
