

# The Signal and the Noise

## Simple Minds

Take off those headphones and let this world pour into you  
Throw off those glasses and then you'll start seeing  
Forget those battles those ones that mean nothing to you  
Move? you're alive and just smile you'll start hearing  
Somewhere out beneath the heavens and the atmosphere  
Somewhere out among the silence there's a voice  
There's a feeling that takes over and it has no fear  
When you're caught between the signal and the noise  
Shout out the names (of) everyone that feels most dear to  
you  
Praise? to the road and the sun and you'll start feeling  
Shut out those ghosts? with their talk is far too negative  
Make love your armour and smile and you'll start hearing  
Somewhere out beneath the heavens and the atmosphere  
Somewhere out among the silence there's a voice  
There's a feeling it takes over and it has no fear  
When you're caught between the signal and the noise  
And the noise  
And the noise  
Somewhere out beneath the heavens and the atmosphere  
Somewhere out among the silence there's a voice  
There's a feeling it takes over and it has no fear  
When you're caught between the signal and the noise  
You're just caught between the signal and the noise
