# Mysterious

## M.L.A.

No way of controlling my body mysterious
You touch me that way, my souls of above
When we say goodbye
There's no turning back for love
Now I think it's time to make the floor burn
No way of controlling my body mysterious
You touch me that way, my souls of above
When we say goodbye
There's no turning back for love
Can't you see now what I am saying?
The beat is rough and I ain't playing
Mysterious things we like to know
Secret things that you never showed
A vision of something you're driving for
You gave me the key and I opened the door
There's something between us, you and me
'Cause your love is like a unsolved mystery
A mystery is what you are to me
You keep me guessing, I feel like stressing
All the time yeah you blow my mind
I don't know what I am searching for

Every time you're around, you're asking for more
I'm interested to know what you are all about
You're the only on without a doubt
You've got me acting so delirious
Everything about you girl, mysterious
Something you want to figure out
But you don't know how? Mysterious
You move mysterious
You look mysterious
You are mysterious
So mysterious
No way of controlling my body, mysterious
You touch me that way, my souls of above
When we say goodbye
There's now turning back for
No way of controlling my body, mysterious
You touch me that way, my souls of above

When we say goodbye
There's now turning back for
Love
