

Two to the Chest

[Skeler](#)

Well Alright
Yeah they know who it is
They say that it is

For forged in mind
You already know the biscuits
Local just stepped in, Where do I begin

I be getting in the bed that was frozen,
Spent my time right around the black just doping

'till I turn 14 thawed out unnoticed
That they don't lock the doors on the cross 'round the corner
If you wanted to take me to these sophisticated solar
Ash trash slow but the slow for a slower

Never had the buz, 'till I scrub with the scrap
Far from another crowbar in my back
