Albany Blues

Edith Frost

When we go down to albany
All our problems will just be beginning but
Everything just might get better
When we finally get to where we're gonna goOh baby when go down to albany
Oh the headaches'll be so amazing cause
It's not easy to move your possessions
To a place so far away from homeOh yeah we're workin' hard
On the redesign
We gotta talk
Till we get it just right
You understand
Cause it takes forever
And we can't leave nothin' behindOh no when we go down to albany
Don't you know we'll be startin' all over and
We got piles of old belongings
That we just can't bear to leave behind
Oh no noWhen we go down to albany
Everything'll be so much easier
Maybe i'll be gone by then
Or maybe i'll get left along the wayUh huh we're workin' hard
On the redesign
We gotta talk
Till we get it just right
You understand
Cause it takes forever
And we can't leave nothin' behindOh no when we go down to albany
Everything'll be so much easier
Maybe i'll be gone by then
Or maybe i'll get left along the way
