

Raided (Album Version)

Salt Ashes

[VERSE]

Living in a glass there's no one there

No one but disarray

Baby if you're lost I'll take you there

We could be miles away

Mile away, Miles away[PRECHORUS]

Don't wanna know what I believe in

Soak up the smoke to ease the healing

I vandalise the only silence that I've ever known[CHORUS]

Baby, just take me higher than the truth we could have it all

Raided, just keep on running till we overload

Don't wanna know what I believe in

Soak up the smoke to ease the healing

I vandalise the only silence that I've ever known[VERSE]

Spinning through the crowds no light to spare

Downing this misery

Baby if I'm lost no one would care

They'd bury the remedy[PRECHORUS]

Don't wanna know what I believe in

Soak up the smoke to ease the healing

I vandalise the only silence that I've ever known[CHORUS]

Baby, just take me higher than the truth we could have it all

Raided, just keep on running till we overload

Don't wanna know what I believe in

Soak up the smoke to ease the healing

I vandalise the only silence that I've ever known[BRIDGE]

I trust dark skies

Take me tonight
