

# I Was Walkin'

Ringo Starr

I was walkin', I was talkin'  
I was talkin' to myself last night  
I was dancin', yeah I was dancin'  
I was dancin' by myself last night My occupation is syncopation  
And when I hit 'em well it saves my life, hey I've been a sinner, I've been a winner  
My life's better than a roll of the dice Everybody's movin', everybody's groovin'  
Goin' thru the motions  
'Cause we don't know what we're doin'  
Look into the mirror, you're the solution)  
Inner peace and love is the only revolution I look in a mirror, I look in a mirror  
I look in a mirror and I'm lookin' alright  
I never worry, I never hurry  
I'm just livin' and I'm doin' alright Everybody's movin', everybody's groovin'  
Havin' so much fun  
'Cause we're happy what we're doin'  
Look into the mirror, you're the solution  
Inner peace and love is the only revolution I was dreamin', I was talkin'  
I was talkin' in my sleep last night Everybody's movin' everybody's groovin'  
Havin' so much fun  
'Cause we're happy what we're doin'  
Look into the mirror, you're the solution  
Inner peace and love is the only revolution I was lookin', I was cookin'  
I was cookin' by myself last night  
I was dancin', I was dancin'  
I was dancin' by myself last night I was walkin', yeah I was walkin'  
I was walkin' by myself last night
