Superstar

Broods

You've been looking for
I've been holding my head
You've been filling on spaces I'm working too much
It's the life we're leaving now
And it's beautiful somehow
I've been for waiting for the sun to rise
Where you are
So I can tell you you're a superstar
I've been waiting for our worlds to be in line
So I can let you know that baby you're the rest of my life
You have love, you have cared
You've been so good to me
I can try, hard enough just to make you believe
We've been holding on so rise
Cause we need it way too much
I've been for waiting for the sun to rise
Where you are
So I can tell you you're a superstar
I've been waiting for our worlds to be in line
So I can let you know that baby you're the rest of my life
I've been dreaming of a future
That looks like a star
Under the light that we made it pass
I've been for waiting for the sun to rise
Where you are
So I can tell you you're a superstarYou know I think about it all the time
You will runaway with me
And we'll go looking for a place to hide
And you will be at home with me
You will be at home with me
We will be at homeCause we need it way too much
I've been for waiting for the sun to rise
Where you are
So I can tell you you're a superstar
I've been waiting for our worlds to be in line
So I can let you know that baby you're the rest of my life
I've been dreaming of a future
That looks like a star
Under the light that we made it pass

I've been for waiting for the sun to rise
Where you are
So I can tell you you're a superstarIt's the life we're living now
