

# In The Dark

Omarion

Yea

All this time I've been waitin'  
To get you in this room alone  
Now you're here, it's time, listen  
This can't be real

The time has come for us to do our thing  
What I mean by do our thing is  
Come in and shut the door  
You gon' ring then press ignore  
I'ma give you what you waitin' for  
I am so anxious but a little nervous  
I know that you're the one  
So I can't explain what you do to me  
So turn off the lights, let's make it right  
Girl, I wanna take it, yea

In the dark

We can get touchy, feely, I'ma make sure you feel me  
Girl, I can't wait to get us in the dark  
This time can't be wasted, girl, I'm tryna taste it  
Baby, come and meet me in the dark  
Don't be afraid when I touch you, I just wanna love you

We can get busy in the dark

It's time to get our grind on, baby, don't be shy, no  
All these things can happen in the dark  
Don't want to complicate the situation

So I'ma try my best to make it comfortable for you

Girl, you won't believe what's happenin'

You gon' feel like a virgin again

Guarantee you come back again

One, we don't need no candle lights

Two, the moon is shinin' bright

Three, baby, all I need is your legs wrapped around me

Four, we don't got no time for games

Five, I wanna hear you scream my name

Six, 'cus it's time for me to set myself up into you

In the dark

We can get touchy, feely, I'ma make sure you feel me  
Girl, I can't wait to get us in the dark

This time can't be wasted, girl, I'm tryna taste it  
Baby, come and meet me in the dark  
Don't be afraid when I touch you, I just wanna love you  
We can get busy in the dark  
It's time to get our grind on, baby, don't be shy, no  
All these things can happen in the dark  
All day I've been waitin', oh, for you girl  
Gonna take you, gonna take you on this ride  
I'm gonna show you how I get down  
Gonna show you how I get down  
I know that things will happen  
If you don't know baby I will  
Tomorrow we gon' do it again  
And again and again and again  
But there's one more thing that I gotta tell, girl  
Please don't tell nobody what we do  
In the dark  
We can get touchy, feely, I'ma make sure you feel me  
Girl, I can't wait to get us in the dark  
This time can't be wasted, girl, I'm tryna taste it  
Baby, come and meet me in the dark  
Don't be afraid when I touch you, I just wanna love you  
We can get busy in the dark  
It's time to get our grind on, baby, don't be shy, no  
All these things can happen in the dark  
Now it's really time  
In the dark  
For everything to happen  
Between me and you  
In the special place  
In the dark  
Yea
