

# Child of This Universe

## Faith Rivera

I am a child of this universe  
The ocean dances at my feet  
The wind plays a melody through my hair  
I am loved at every turn  
I am kissed by mother earth

Every blade of grass  
Every shaking leaf on a tree  
Every mountain top  
Sings of the glory of god  
Moving through me

I am a child of this universe  
The sun warms me in its embrace  
The stars have aligned for me in the sky  
I am honored by all life  
I am held by father time

To every blade of grass  
To every shaking leaf on a tree  
To every mountain top  
I sing of the glory of god  
Moving through all  
Moving as me  
Moving as you  
Movin'

I am a child of this universe  
Through my breath all of life can breath  
I plant the seeds with my every dream  
I can love at every turn  
Give a kiss to mother earth

Yes i am a child of this universe  
I greet the god in each face  
I am a channel for peace to flow  
Oh i honor all of life  
Yes i'm one with father time

To every blade of grass

To every shaking leaf on a tree  
To every mountain top  
I sing of the glory of god  
Moving through all  
Moving as me  
Moving as you  
Movin'
