

# Never In A Million Years

[Laura Branigan](#)

Oh, if I could touch you  
It'd be a once in a lifetime dream come true  
And oh, if I could have you  
Just one night, just one time  
But I know I'll never get the chance  
I'll never get a second glance  
Never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years  
Oh, I need you  
If you could only see inside my heart  
And oh, to be near you  
Close enough to reach and touch  
Well, I've thought it over in my mind  
If I could walk across the bridge of time  
Never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years  
But I know, I'll never, never  
Never get the chance  
I'll never get a second glance  
Never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years  
Never, never in a million years  
Never in a thousand tears  
If I could ever hold you  
I'd never let go  
Never in a million years
