Wanna Be With You

Urban Knights

Ooh, ooh, yeah, yeah, yeah
I know that you wanna talk about it but I gotta put it in your mind
I feel like we've been through this story a thousand times
I feel like we've been going around and around in circles
Ooh why, we gotta put this behind us, yeah, yeah
Baby, listen to me
Please don't walk out that door
'Cause if you ever need me
I'd be lost, I'd be going crazy
'Cause I don't want nobody else
I just wanna be with you
You're the only one who completes me baby
You're the one who makes me whole
Why is it that every time I looked in your eyes
I see something wrong, insecurity
When all along I was trying make it right
Keep us going strong, and loving you faithfully
Baby, listen to me
Please don't walk out that door
'Cause if you ever need me
I'd be lost, I'd be going crazy
'Cause I don't want nobody else
I just wanna be with you
You're the only one who completes me baby
You're the one who makes me whole, ooh, baby
'Cause I don't want nobody else
I just wanna be with you
You're the only one who completes me baby

You're the one who makes me whole
Girl you're messing with a player
And a player will probably play ya
But a player thinks he's sticking with you
Not a streets-create, so much distrust
That I'd probably be ready to break it to you
Now I ain't trippin'
We can kick it in the morning we can make it in the evening
Stroll through the park with the Cali smoke grievin'
Believe it, I wouldn't even leave you for nothin'

That's why I'm man enough to say my feelings I ain't finding
Let's go on the road to the end of the sunshine
I'ma forget about your past, hoping you forgot mine
I'd be focus on my grind, you'd be trying to hold me down
I told you I'd be your boy come on, baby girl, let's ride
'Cause I don't want nobody else
I just wanna be with you
You're the only one who completes me baby
You're the one who makes me whole
'Cause I don't want nobody else
I just wanna be with you
You're the only one who completes me baby
You're the one who makes me whole
'Cause I don't want nobody else
I just wanna be with you
You're the only one who completes me baby
You're the one who makes me whole
