

# At Most a Kiss

## Blossoms

I wrote to fear, to disappear  
At most a kiss, this time  
I'll be the boy, I'll packet the earth  
Into the abyss, we'll climb  
At most a kiss, this time Is it on?  
Someone said that you left town  
But I've been holding on too long  
Someone said that, boy, she's gone  
If it's time, then I'm yours, so let me know She wedded her man  
Let's elope to Japan  
Between the Rosemary wilds we'll hide  
I thought I was your boy, the earths on hold  
I'll packet a stone I find  
At most a kiss, this time Is it on? Someone said that you left town  
But I've been holding on too long  
Someone said that, boy, she's gone  
If it's time, then I'm yours, so let me know I was thinking you were always mine  
We watched the skies fall down  
We'll carry on when worlds divide  
This party beast that makes no sound Is it on?  
Someone said that you left town  
But I've been holding on too long  
Someone said that, boy, she's gone  
If it's time, then I'm yours, so let me know At most a kiss  
At most a kiss  
At most a kiss  
At most a kiss
