## **Cry Freedom**

## **Uriah Heep**

She told the story
I listened with my eyes closed

So sad but so true

She whispered softly

I asked her why she did so

She knew that I knewShe was a skater

The ice was her second home

The country's finest everyone could see

She had a plan

To break across the border

Instead of waiting for the powers that beCry freedom, sweet freedom

Tell the whole world

To get ready

Cry freedom, sweet freedom

Tell the whole world

That we're readyShe said goodnight

But just as I was leaving

A black car came into view

And waiting there

They could hear me breathing

They knew that I knewCry freedom, sweet freedom

Tell the whole world

To get ready

Cry freedom, sweet freedom

Tell the whole world

That we're readyInsane questions

They asked me what did I know

So strange, they let me go

But more they try

The stronger our love grows

I know that you knowCry freedom, sweet freedom

Tell the whole world

To get ready

Cry freedom, sweet freedom

Tell the whole world

That we're readyCry freedom, sweet freedom

Cry freedom, sweet freedom

Cry freedom, sweet freedom

Cry freedom, sweet freedom

Cry freedom, sweet freedom Cry freedom, sweet freedom Cry freedom, sweet freedom
