

# Security

Stacie Orrico

Another day all alone again  
Someone please love me  
Another game, another broken heart  
Why do I do this to myself If I could look and try to find someone  
That's won't leave me lonely  
But then I found I didn't need to search  
'Cause you were the one and you carried me You fought for my heart and you have won it  
You're taking me over and I like that  
I tried other love but couldn't feel it  
I'm so glad you found me because I need you so close to me  
( 'Cause you're the )  
Only one that makes my life complete  
( And Lord I )  
Know it took so long to see  
That you're my security You won't go away from me  
( And now I )  
Know that I don't ever have to worry  
'Cause my heart feels so very free  
You're my security  
You are my security  
You are my security Another day, here I go again  
Drive myself insane  
Stop to think, how could I forget  
You're with me every single day Now I look and I see the one  
The only one for me  
'Cause I don't need to search for  
A way to try to be more  
I have found a love that's so secure You fought for my heart and you have won it  
You're taking me over and I like that  
I tried other love but couldn't feel it  
I'm so glad you found me because Other relationships confuse me  
The thought of your simple love is crazy  
You make me feel like no one has before I need you so close to me  
( 'Cause you're the )  
Only one that makes my life complete  
( And Lord I )  
Know it took so long to see  
That you're my security You won't go away from me  
( And now I )

Know that I don't ever have to worry  
'Cause my heart feels so very free  
You're my security I need you so close to me  
( 'Cause you're the)  
Only one that makes my life complete  
(And Lord I)  
Know it took so long to see  
That you're my security You won't go away from me  
(And now I)  
Know that I don't ever have to worry  
'Cause my heart feels so very free  
You're my security I need you so close to me  
( 'Cause you're the)  
Only one that makes my life complete  
(And Lord I)  
Know it took so long to see  
That you're my security You won't go away from me  
(And now I)  
Know that I don't ever have to worry  
'Cause my heart feels so very free  
You're my security I need you so close to me  
( 'Cause you're the)  
Only one that makes my life complete  
(And Lord I)  
Know it took so long to see  
That you're my security You won't go away from me  
(And now I)  
Know that I don't ever have to worry  
My heart feels so very free  
You're my security
