Security

Stacie Orrico

Another day all alone again

Someone please love me

Another game, another broken heart

Why do I do this to myselfIf I could look and try to find someone

That's won't leave me lonely

But then I found I didn't need to search

'Cause you were the one and you carried meYou fought for my heart and you have won it

You're taking me over and I like that

I tried other love but couldn't feel it

I'm so glad you found me becauseI need you so close to me

('Cause you're the)

Only one that makes my life complete

(And Lord I)

Know it took so long to see

That you're my securityYou won't go away from me

(And now I)

Know that I don't ever have to worry

'Cause my heart feels so very free

You're my security

You are my security

You are my security Another day, here I go again

Drive myself insane

Stop to think, how could I forget

You're with me every single dayNow I look and I see the one

The only one for me

'Cause I don't need to search for

A way to try to be more

I have found a love that's so secureYou fought for my heart and you have won it

You're taking me over and I like that

I tried other love but couldn't feel it

I'm so glad you found me becauseOther relationships confuse me

The thought of your simple love is crazy

You make me feel like no one has beforeI need you so close to me

('Cause you're the)

Only one that makes my life complete

(And Lord I)

Know it took so long to see

That you're my securityYou won't go away from me

(And now I)

Know that I don't ever have to worry
'Cause my heart feels so very free
You're my securityI need you so close to me
('Cause you're the)
Only one that makes my life complete

(And Lord I)

Know it took so long to see
That you're my securityYou won't go away from me
(And now I)

Know that I don't ever have to worry
'Cause my heart feels so very free
You're my securityI need you so close to me
('Cause you're the)

Only one that makes my life complete (And Lord I)

Know it took so long to see
That you're my securityYou won't go away from me
(And now I)

Know that I don't ever have to worry
'Cause my heart feels so very free
You're my securityI need you so close to me
('Cause you're the)

Only one that makes my life complete (And Lord I)

Know it took so long to see
That you're my securityYou won't go away from me
(And now I)

Know that I don't ever have to worry

My heart feels so very free

You're my security
