## **Everlasting**

## **Polock**

Suppressed insanity
Ignoring messed-up thoughts
A peaceful mind
Someone to kiss and kick you
Uhhh

Feels like rust

Go over the top

With no one to bring me downTied up in Babia

Thinking this is fun

Should be everlasting

But soon becomes dullSo I'm fighting through the crowd

Ignoring so called friends

Confined dead ends

But then I get this feeling

Uhhh

A long term joy

I'm up in the cloud

Not sure how to get back downTied up in Babia

Thinking this is fun

Should be everlasting

Resting with no oneCrystal and tar combined

Dead and alive

And sounding so sleepy

Uhhh

Shifty eyes

Start to idolize

I don't wanna be socialTied up in Babia

Thinking this is fun

Should be everlasting

But soon becomes dull
