

Latimer's Mercy

Ozzy Osbourne

Another day, another full seizure
Another pill, you spiral down deeper
Another cut by a surgical butcher
It's just a way of prolonging the torture I won't say I don't know what I'm doing
I won't say that I'm sorry
I can't bring you back, I can't leave you helpless
I'll make the pain rest in peace I'll turn off the light
And swallow your last breath
So close your eyes, fall asleep
I'll never hurt you, I'll never hurt you The sun shines on this deadly new mourning
The church bells ring an early warning
You're eyes shine as I turn on the motor
The tears fall as the mercy gets closer I won't say I don't know what I'm doing
I won't say that I'm sorry
I can't bring you back, I can't leave you helpless
I'll make the pain rest in peace I'll turn off the light
And swallow your last breath
So close your eyes, fall asleep
I'll never hurt you, I'll never hurt you I can't bring you back, I can't leave you helpless
I'll make the pain rest in peace I'll turn off the light
And swallow your last breath
So close your eyes, fall asleep
I'll never hurt you, I'll never hurt you
