

Up/Down

Jessica Mauboy

Up down
(Let it go)Up it's Jessi down, they can't be me
They can't stop me, they can't copy my recipe
Down let it goThe dance floor, it knows me, radio ready
Got this on CD on repeat, you know you need me
I'm in ya speaker, the rhythm got bodies talking
You know you want to so let go
You hear it callingThe sound of art in motion, everybody get down
J.Marley comes around, dance floor shuts downYou wanna get into something
That ain't 'bout nothing, just let it go
Turn it up, I'll put it down
Get it up, I'll put it down, downYou hear the beat jumpin' through the speakers
They 'bout to blow
They burnin' up, I put it down
Turn it up, I'll put it downThey can't stop me, they can't copy my recipe
Down let it goGo when the beat goes do just do what you hear
Let go of your troubles put that in the air
You want to so let go you hear it callin'
Forget the drama let that all be broken byThe sound of art in motion, everybody get down
J.Marley comes around, dance floor shuts downYou wanna get into something
That ain't 'bout nothing, just let it go
Turn it up, I'll put it down
Get it up, I'll put it down, downHear the beat jumpin' through the speakers
They 'bout to blow
They burnin' up, I put it down
Turn it up, I'll put it downYou wanna get into something
That ain't 'bout nothing, just let it go
Turn it up, I'll put it down
Get it up, I'll put it down, downHear the beat jumpin' through the speakers
They 'bout to blow
They burnin' up, I put it down
Turn it up, I'll put it downUp it's Jessi down, they can't be me
Up it's Jessi down, they can't be me
They can't stop me, they can't copy my recipe
Down let it goEverybody has their ups and downs
You just gotta let it go
We're right here, right now
Don't let it stop your show
So you should lay your cares on the radioThe sound of art in motion, everybody get down

J.Marley comes around, dance floor shuts down
You wanna get into something
That ain't 'bout nothing, just let it go
Turn it up, I'll put it down
Get it up, I'll put it down, down
Hear the beat jumpin' through the speakers
They 'bout to blow
They burnin' up, I put it down
Turn it up, I'll put it down
You wanna get into something
That ain't 'bout nothing, just let it go
Turn it up, I'll put it down
Get it up, I'll put it down, down
Hear the beat jumpin' through the speakers
They 'bout to blow
They burnin' up, I put it down
Turn it up, I'll put it down
Up it's Jessi down, they can't be me
Up it's Jessi down, they can't be me
They can't stop me, they can't copy my recipe
Down let it go
Up it's Jessi down, they can't be me
Up it's Jessi down, they can't be me
They can't stop me, they can't copy my recipe
Down let it go
They can't stop me, they can't copy my recipe
Down let it go
