

# Rocky

## Thin Lizzy

Cocky Rocky, the rock and roll star  
He's got the talent to take him far  
Started out playing hotel bars  
Cocky Rocky, the rock and roll star Spent his time just looking for kicks  
Whipping out them mean and nasty guitar licks  
He knows all the tricks to pull the chicks  
Just half a chance and away he rips Come on Rocky take me into the night  
The neon streets are shining bright  
To all them queens you bring the light  
That Cocky Rocky, his belts are so tight Hits the stage, the show begins  
Dressed in black to make him thin  
A sweetening flash where he grins  
Sail away Rocky and for Come on Rocky and throw the dice  
You threw it once, now throw it twice  
Hey the boys, they wanna slice  
They paid the money, they want their choice Cocky Rocky, he's the rock and roll star  
He's got the talent to take him far  
And all he needs is that old guitar  
Cocky Rocky, the rock and roll star
