

# Greed

## Pennywise

everything you see you always think you need you are so crazy motivated by greed you never take  
responsibility you only waste your time when you fuck with me all you do is take you see my hatred grows  
can't take much more i'm about to explode you'll see a side of me i've never shown you'll feel pain like you've  
never known got enough but you want it all in it for greed now you're gonna fall here we come gonna ruin your  
day time has come it's your turn to pay the mighty dollar is your only care you're movin' up but you're going  
nowhere you say you only want to get your share but you still want more no you won't play fair you'll never  
ever quit you won't be denied you sit and watch your money multiply to get what you want you'll cheat and lie  
but i know - you won't be satisfied today is a good day for suffering
