Into the Gutter

The Answer

Lights, they gotta go can't be better like this
Did you even know that the light exists
Becase you need me and I need you
Leave a rock alone when it can't be moved
Don't go into the gutter, don't go into the gutter
Don't go...It means so much to me, please
Don't go into the gutter, don't go into the gutter
Don't go...
