

# Energy

## Thor

energy, takes me where I wanna be  
and you're where I wanna be  
girl you give me energy, takes me where I wanna be  
and you're where I wanna be  
girl you give me I live by one simple rule  
I don't let nothing get by  
I sometimes act like a fool  
But that has kept me alive I set my goals and I pace myself  
I plan out all of my moves  
But when I'm starting to fall apart  
well baby, I, I turn to you  
you give me energy  
oh yeah you do  
you give me energy (energy)  
you make me stronger every day when I am dead on feet  
my eyes are heavy and red  
you give me something to eat  
uuh and then you take me to bed my body's aching  
my head's spinning  
I feel so small in this room  
but when I'm starting to just give in well baby, I, I turn to you you give me energy  
oh yeah you do  
you give me energy (energy)  
you make me stronger every day  
energy, takes me where I wanna be  
and you're where I wanna be  
girl you give me - energy energy, takes me where I wanna be  
and you're where I wanna be  
girl you give me - energy energy, takes me where I wanna be  
and you're where I wanna be  
girl you give me  
you give me energy  
you make me stronger every day
