

# Little By Little

[Olivia Collingsworth](#)

Just yesterday I was so small I've been learning new things as I grow some people say I'm getting so tall where  
did the little kid go inside and out God is making me new you may not see it happen until He is through

Chorus

Little by little I'm changing I'm growing little by little I hope that it's showing I'm not who I'll be im not who I  
was I'm some where in the middle but God is changing me little by little

Sometimes it seems that I'm so far away from all I want some day to be but His word says that He'll finish one  
day all that He started in me I look at me and I don't understand but God has a vision and God has a plan
