Ocean Pie

Shed Seven

What it's like to let the feeling flow
It shakes me cold
In the morning when you're feeling low
You're worth your weight in gold
I can see through
I can see right through you
What's it like to stop and just let go
No heart, no soul
I'm sinking deep I need to feel that glow
You're worth your weight in gold
I need to feel you
I need to feel right through you
Everything here is above board
Everything here is a closed door
There's something I'd like you for
You've got the key to the ocean
You've got the key to the ocean
What's it like to fall and hit the end
To have and to hold
You are my only old friend
You worth the gold I stole
I'd find the right use
If I could cut myself loose
Everything here is above board
Everything here is a closed door
There's something I'd like you for
You've got the key to the ocean
You've got the key to the ocean
I don't need to be
I need to survive
You've got the key
For staying alive
For staying alive
For staying alive
Everything here is above board
Everything here is a closed door
There's something I'd like you for
You've got the key to the ocean
You've got the key to the ocean
