

# Let There Be Morning

## The Perishers

Now the end is drawing near  
I cant believe its finally here  
Take some time to pray for me  
For what will beLet the sun rise  
Let the birds sing  
Let there be light  
Let there be morningI dont know how  
I made it till now  
Let there be light  
Let there be morning  
Let there be morningHello future, goodbye past  
Now each breath can be my last  
Will I see another dawn?  
Will I be reborn?Let the sun rise  
Let the birds sing  
Let there be light  
Let there be morningI dont know how  
I made it till now  
Let there be light  
Let there be morningLet the sun rise  
Let the birds sing  
Let there be light  
Let there be morningI dont know how  
I made it till now  
Let there be light  
Let there be morningLet there be light  
Let there be morning  
Let there be light  
Let there be morning
