Holly Park

Brandtson

Sometimes I can't see you, beautiful
I need you to show me secrets
Can you breathe, so I can hear you
Say to me that you're not leavingSad boy flies and comes down broken
Realize that I can't without you
Cloudless blue inside of your eyes
It's so much clearer when I'm with you
No where else is where I want to beAnd when you're gone I'll always know where you are
Just think of me and I will you
Since when you're gone I will always know where you are
Just think of me and you know that I will think of you
