

Funeral Day

The Mint Chicks

Her life's been short but she's made some mistakes
She lights the flame that ignites the remains

I doubt she'll grow wise, old and grey
Before that fateful funeral day

Don't hide your face
No revenge, it's too late
Don't cut your wrists
You've got beautiful fists

I doubt she'll grow wise, old and grey
Before that fateful funeral day

Her life was short and she'd made some mistakes
She lights the flame that ignites the remains

I doubt she'll grow wise, old and grey
Before that fateful funeral day
I doubt she'll grow wise, old and grey
Before that fateful funeral day
