

One Way Window

[MxPx](#)

There's barriers in my mind
That I think about all the time
And I know there's no way past them
I can never get away from the things that people say
Well, I guess that's just part of it allMy one way window
Where I can't hide my one way window
Where I can't see the other sideMy one way window
Where I can't hide my one way window
Where I can't see the other side
