

# This Is The Life

## Living Colour

Eee, eee  
Eee, eeeIn another life you might have been a genius  
In another life you might have been a star  
In another life your face might have been perfect  
In another life you'd drive a better carIn another life all your jokes are funny  
In another life your heart is free from fear  
In another life you make a lot of money  
In this other life everything is clearIn another life you're always the hero  
In another life you always win the game  
In another life no one ever cheats you  
In another life you never have to changeIn another life your friends never desert you  
In another life you never have to cry  
In another life no one ever hurts you  
In this other life your loved ones never dieBut this is the life you have  
This is the life you have  
This is the life you have  
This is the lifeIn another life you're always the victim  
In another life you're always the thief  
In another life you're always lonely  
In this other life there is no reliefIn your real life treat it like it's special  
In your real life try to be more kind  
In your real life think of those that love you  
In this real life try to be less blindThis is the life you have  
This is the life you have  
This is the life you have  
This is the life you have  
Hee, hee, hee, hee
