# Falling For You

## Busted

Semester's coming soon
So I would like to mention
I woke up in my room
Alone you always welcome
Next week my mum's away
So now my futures brightened
I'd ask to have you stay
If I wasn't so frightened
I, I'm really falling for you
I, hate what you're putting me through
What have you done to me now?
I just can't sleep at night
My bed is wet don't know how
Will someone please turn on the light
You showed up at my door
Just like in a teen movie
I said, "Are you the whore"
I paid to come and fuck me?
I guess she found it funny
When I said, "Hello Honey"
The piercing in her belly
It turned my legs to jelly
I, I'm really falling for you
I hate what you're putting me through
What have you done to me now?
I just can't sleep at night
My bed is wet don't know how
Will someone please turn on the light
Taking over my life but I don't seem to mind
And there's no stopping you, taking me on a ride
I, I'm really falling for you
I hate what you're putting me through
What have you done to me now?
I just can't sleep at night
My bed is wet don't know how
Will someone please turn on the light
Will someone please turn on the light
I, I'm really falling for you
I hate what you're putting me through

What have you done to me now?
I just can't sleep at night
My bed is wet don't know how
Will someone please turn on the light
