Force Fed Broken Glass

Cannibal Corpse

Flesh starts to rip, gouging through skin
From the throat blood gushes
Glandular eruption, blistered skin secretion
Internal punctures, blood regurgitationGagging, choking on broken glassShredded muscle tissue
Wounds too deep to heal
Severed esophagus, tongue split in half
Lungs fill with blood as vocal chords collapseOral sex with broken glass
Ruptured flesh ripped through the neck
Mutilate pulsing veins, sliced windpipeFlesh starts to rip, gouging through skin
From the throat blood gushes
Glandular eruption, blistered skin secretionWounds too deep to heal in meTorn trachea, splintered skin, down the throat choke
Lungs fill with blood as vocal chords collapse
Oral sex with broken glass
