

# Shitlist

## DevilDriver

Pure manifestation of evil  
It's black and it's dismal  
You'd never know until it's upon you  
You're on a bender  
I'm deconstructing the disease You've burned the bridges  
You've sowed the lies  
You've burned the bridge  
You're on the shitlist You've burned the bridges  
You've sowed the lies  
You've burned the bridge  
You're on the shitlist Hate holds me together  
Your skin's not worth the saving  
Just keep my name outta your mouth  
On your fuckin' benders  
I'm deconstructing the disease You've burned the bridges  
You've sowed the lies  
You've burned the bridge  
You're on the shitlist You've burned the bridges  
You've sowed the lies  
You've burned the bridge  
You're on the hit list The tables have turned  
I've opened my eyes  
Look at all you've burned  
You're on the shitlist Fear will do what must be done  
Death will reign from above You've burned the bridges  
You've sowed the lies  
You've burned the bridge  
You're on the hit list The tables have turned  
I've opened my eyes  
Look at all you've burned  
You're on the shitlist  
You're on the shitlist You know who you are  
You're on the hit list
