

Give It a Try (Remastered)

Badfinger

Give it a try and we can make it so high
You'll never feel this way again
Wipe off your sorrow and pain, come into my heart Just give it the time, should work out fine
We can make it, we can break it
It's not a command, just give me your hand
We can break it, whoa oo We can take it, take it Give it a try and then change your desire
You'll never make love on your own
Now that the love seed is sown
Don't put out the fire Give it the time, we can work out fine
We can make it, we can break it
It's not a command, baby, give me your hand
We can break it, we can take it
