Nighttime falling through the trees
All we ask them was to work
to through the common pick
Crash of sound up, crazing in
All the emptiness of sound resonates your fear
Heard you whisper in your sleep
Try to hear you, try to seeThe sky falls away, so they come see him
In the light, holds its place
Inside of me and your heart, your heart, your heart
Bears my name, to hold me now, to RESONATE
The night lose it on the sand
All we ever looked we found
Laid beneath your feet
Heard you whisper in your sleep
Try to hear you, try to seeThe sky falls away, so they come see him
In the light, holds its place
Inside of me and your heart, your heart, your heart
Bears my name, to hold me now, to RESONATETo hold me now, to resonate
To hold me now, to resonate
To hold me now, to resonate
To hold me now, to resonate
The sky falls away, so they come see him
In the light, holds its place
Inside of me and your heart, your heart, your heart
Bears my name, to hold me now, to RESONATE
