

# Let the World Know

## Camp Chayolei Hamelech

Scattered in the different lands  
We did our task at hand  
We have become now more refined  
The ma'ayonos are now spread  
In every language read  
It's understood by all mankind

Nevuah has returned  
It's just what we have yearned  
Standing at the post of the Geulah's door  
We have a novi in our midst  
To lead and to assist the Jewish nation at its chore

The Rebbe, our novi, knows just what to do  
He gives out clear instructions for every single Jew  
Hundreds of leaders ask him for advice  
Every single word he says is perfect and precise

(Chorus)

Yesh novi b'yisroel, let the world know  
Through his holy mouth, Hashem's words do flow  
Eilav tishme'un, with whatever he will show  
Including his nevuah, hinei zeh Moshiach bah!

(End chorus)

The Six-Day War caused much concern  
They all to one did turn  
The Rebbe's voice brought peace of mind  
In the Holy Land is Hashem  
He's always watching them  
There is no threat of any kind

The mighty Russian war will fall  
So build the houses tall  
To fit the Yidden coming out

Sadam Hussein sent many scuds  
There was no shed of blood  
The Rebbe's prophecy came about

The Rebbe's words are lasting  
There's never room to fear  
Especially his promise, Moshiach's very near  
I've done all I can and now it's in your hands  
Let's get this golus out of here and see the Promised Land

(Chorus)
