

Long As I Live

Jaheim

Yeah yeah yeah, oh, long as I live Long as I live, handle my biz
Take care of our kids, 'cause loving you is what it is, oh
Long as I live, I vow to share with, you happiness and bliss
'Cause loving you is what it is With this ring I thee wed, to share my life, to share my home
To share my heart and my bed
To not make you weak but strengthen you instead
Till death do us part From this day forth for all time baby
Here on earth and where angels fly
Gonna love you so much till it makes you cry
With every beat of my heart, ooh Long as I live, handle my biz
Take care of our kids, 'cause loving you is what it is, oh
Long as I live, I vow to share with, you happiness and bliss
'Cause loving you is what it is Before our God, I take this vow
With family gathered around, it's official now
So take my hand and lets take a bow
And together we will win A commitment to make a sacrifice
I gladly give it all up I've made my mind
Just for being my, being my friend, being my wife
I'd do it all again Won't you trust me, I will show you
The type of man I was raised to be if you just let me
Slide this ring up, up on your finger
Cop the crib help raise the kids, yes I'll deliver
Promise to never let you down, oh no
I promise to always be right there, I'll be around Just as long as you say the words
Long as I live, I vow to share with, you happiness and bliss
'Cause loving you, loving you is what Long as I live, I handle my biz
Take care of our kids, 'cause loving you is what it is, oh
Long as I live, I vow to share with, you happiness and bliss
'Cause loving you is what it is Long as I live, I handle my biz
Take care of our kids, 'cause loving you is what it is, oh
Long as I live, I vow to share with, you happiness and bliss
'Cause loving you is what it is Long as I live, I handle my biz
Take care of our kids, 'cause loving you is what it is, oh
Long as I live, I vow to share with, you happiness and bliss
