

# Hangtown (Alternate Version) [Bonus Track]

[Jason Lytle](#)

Hangtown, sing the final song  
It's called the tree from which you hang,  
That's done no wrong Hangtown, the birds have not yet gone  
They're waiting around to see that you fly on The sorry cardboard cowboys  
Tried to run you out of town  
For trying to turn your dreams into a song The senate candle cowboys  
Tried to run you out of town  
They tried to turn your dreams into a song Hangtown, it's like you're on a bike  
With legs that kick and paddle toward the light Hangtown, you did the best you could  
Now forgive them all they know now what they do  
Forgive them all for they were once good too  
Forgive us all we know now what we do Hangtown
