

Atom Bomb

Beach Slang

My heart is set on '77
Wild nights and porno mouths
Won't die so I don't need heaven
I'm too fucked up to burn out I'm an atom bomb ticking I'm a dead-end kid in the city
Dirty thoughts in a dirty town
I was born with trouble in me
I don't care why or how I'm an atom bomb ticking
I'm an atom bomb Come smear your lips on my bruises
Wake me up wear me out
Let's get free, numb and loose
And kiss me with holy sound I'm an atom bomb ticking
