Believe

Ian Van Dahl

You don't have to worry I'll never leave your side I know you're feeling down You've lost your faith in life
And when the rain falls down then I'll be there for you You better start to fight and make your dreams come true
Wherever you will be Whatever you will do Remember That I still believe in you

You don't have to worry 'Cause dark clouds fade away It's time to live your life Don't cry for yesterday
And when the rain falls down then I'll be there for you You better start to fight and make your dreams come true
Wherever you will be Whatever you will do Remember That I still believe in you
