Feva Las Vegas

N-dubz

N-Dubz, N-Dubz, what?
Yeah, it's N-Dubz, N-Dubz
Na, na, nah, it's N-Dubz, N-Dubz, what?
I should have knew this from the start that if we blow all these people
The so called friends who I ain't spoken to in years
They got the nerve to call me up and waste my time
I don't need you for nothing so come the *** out of my life
Yeah, I live my life on stages Feva Las Vegas
Sylvester Stallone in it, any chick I'm boning it
I'm entrepreneuring, we do this all ourselves
From the productions, videos and everything else
See the buzz that we created was rare
Two independent releases from 'Better Not' to 'I Swear'
But I presume it's the tune with the chair that caused the havoc
Got all of these labels talking 'bout who the first to grab it
About man tryna buy ma publishing for only 80 grand
I might look like a boy but I got a mind of a man, straight
See the *** game gives you a false high
When you think you're speaking to me mate you're screamin' in my eye
Success causes jealousy
It can turn your best friend into your enemy
All I know, I believe in what I do, I can live without you
You *** are tryin' to suck me dry
I should have knew this from the start that if we blow all these people
The so called friends who I ain't spoken to in years
They got the nerve to call me up and waste my time
I don't need you for nothing so come the *** out of my life
I ain't lookin' to be another one hit wonder
Have one track in the charts but then the fame don't last
Now we lookin' to sell units
So when you hear Pussy Cat Dolls and G-Unit
You will say give N-Dubz music
Been preforming on stages ever since we were 13
There ain't no one gon' tell us that we ain't put the work in
Now I'm keen, bustin' my *** talking like a fiend for this dream
N-Dubz is my team, we weren't an overnight thing
From PC's overloadin' to problems that we couldn't solve 'em
One day before our mix was due there's no goin' home
In twenty four hours in the studs eating microwave foods

Gettin' pranks off these dudes, I can't be asked for these youths
Success causes jealousy
It can turn your best friend into your enemy
All I know, I believe in what I do, I can live without you
You *** are tryin' to suck me dry
I should have knew this from the start that if we blow all these people
The so called friends who I ain't spoken to in years
Now they got the nerve to call me up and waste my time
I don't need you for nothing so come the *** of my life
Let's take a look at the situation, at my life where it's gone
Now everybody wants a piece of me
Tryin' to claim a right to the person I've become
That so good perfect image that you see on your TV screen
That discusses reality, that messed up *** you didn't see
And as for all the men who want a piece of the pie
You really think I don't know all the reasons among your mind
It takes for more than cheap talk to win my heart
So tell me where the hell were you before all this ***, locked up?
I should have knew this from the start that if we blow all these people
The so called friends who I ain't spoken to in years
Now they got the nerve to call me up and waste my time
I don't need you for nothing so come the *** of my life
I should have knew this from the start that if we blow all these people
The so called friends who I ain't spoken to in years
Now they got the nerve to call me up and waste my time
I don't need you for nothing so come the *** of my life
Oh, it's N-Dubz, N-Dubz, what?
Yeah, it's N-Dubz, N-Dubz
Na, na, nah, it's N-Dubz, N-Dubz, what?
2007, are you mades for relis?
DAP's to the Y, Tulisa and Faze
