Graphic Nature

Deftones

Leave your drape open
Let me inside
I?m confused more or less
Shed some light
And tell me your secret
How are you trained?
I promise you I can keep it
Go on explain?
Tell me how you do it?now
Your poison is glowing
Against the night
How can you lose
Just show them tricks we like
I?m aware of the demons
That you?ve tucked away
I like to watch you release them
Go on and say?
Tell me how you do it
Every time it takes my knees out
Still every time you do it

I?m surprised
Show your strings, your wires
Check the lights
Provide me clues just go ahead
And break your silence
And tell me your secret
Can I watch you train?
Although I?d like to believe it
Go on explain
Tell me how you do it
Every time it takes my knees out
Cause every time you do it
I?m on fire?
Tell me how you do it
Every time it takes my knees out
Cause every time you do it
I?m surprised?
How the fuck you do it

Every time you take my knees out
Yeah every time you do it
I?m on fire?
