Live In Person

Keith Sweat

Live in person
Live in person
Live in person
Ain't nobody do you, girl, the way I do
Baby, that's a promise, see my need is for you
I know how you like it, you got me excited
The bedroom as I said you can wrap in my consent
Ooh, ooh, I love you
And you give me a reason to be Mr. Pleasin'
I won't tease ya, girl, I'll please ya
You got the best seat and I'm live in person, yeah
You could be my baby on a sold-out stage show
Girl, I'm gonna have you live in person
Your page is on the internet, oh, you're sexy?
Girl, I only want you live in person
I'm here with you, you're here with me
It makes it even better, girl, live in person
The only way I want it, baby, come closer to me, baby
Live in person
Now we can go steady till the end of the show
I'll play my instrument for you nice and slow
You know how I like it, you know how I want it
Backstage, backstage live
I'm gonna give you, baby, all my lovin'
I ask for more for sure 'cause, baby, I'm sorry
You're the headlight, the, the headlight
For you, live in person
You could be my baby on a sold-out stage show

Girl, I'm gonna have you live in person
Your page is on the internet, oh, you're sexy?
Girl, I only want you live in person
I'm here with you, you're here with me
It makes it even better, girl, live in person
The only way I want it, baby, come closer to me, baby
Live in person
You the girl, ease up, and now the spotlight's on you
They're on their feet and the crowd is so in love with you
This is the performance of your life, it feels good, girl, to me

Now this is what people dream about, now where can we meet?
Live in person, live in person, yeah, yeah
You could be my baby on a sold-out stage show
Girl, I'm gonna have you live in person
Your page is on the internet, oh, you're sexy?
Girl, I only want you live in person
I'm here with you, you're here with me
It makes it even better, girl, live in person
The only way I want it, baby, come closer to me, baby
Live in person
You could be my baby on a sold-out stage show
Girl, I'm gonna have you live in person
Your page is on the internet, oh, you're sexy?
Girl, I only want you live in person
I'm here with you, you're here with me
It makes it even better, girl, live in person
The only way I want it, baby, come closer to me, baby
Live in person
