We're Good

Paula Deanda

[Both:]And we're still keeping it together, we're good (We're good)
(Yeah, ey) (Oh) (We're going to stand through the end of the time, baby)
(It's just me and you, we're good)
[Paula DeAnda (Frankie J):]They're always talking 'bout the two of us.
Always saying that we're breaking up.
Always trying their best to tear us down (I know baby)
They like to claim that we won't last too long.
We're just going to go and prove them wrong.
Giving up just ain't what we're about.
They try (Try to come between us)
They lie (They never seem to leave us) alone.
(But no one ever thought we'd make it this far)
[Both:]But we're still keeping it together, we're good.
Aint nobody breaking us apart & no one ever could.
Only cause we're only getting close, we're tight.
None of their words and lies don't matter.
They can say what they like.
We're doing alright, yeah baby we're good.
Baby we're good (We're good)
[Frankie J:]All they got is all their jealousy.
What we are is what they'll never be.
What we know is we got something strong

[Paula DeAnda:](Yeah)
Nothing they can do can bring us down.
Don't they know that we'll still be around.
After all the rumors have come and gone.
[Paula DeAnda (Frankie J):]They try (Try to come between us)
They lie (They never seem to leave us) alone.
(But that don't really matter cause we made it this far)
[Both:]But we're still keeping it together, we're good.
Aint nobody breaking us apart & no one ever could.
Only cause we're only getting close, we're tight.
None of their words and lies don't matter.
They can say what they like.
We're doing alright, we're doing alright.
All that we have is everything we need (Yeah)
I'll stand by you and you will stand by me.
Won't listen to what they say.

No baby there ain't no way.
Nothing is ever going to come between us.
Just you and me.
But we're still keeping it together, we're good.
Aint nobody breaking us apart & no one ever could.
Only cause we're only getting close, we're tight.
None of their words and lies don't matter.
They can say what they like.
We're doing alright, we're doing alright.
