

# Ephemeral Summer

## Frankmusik

She's my experience  
I could erase it  
I ended up with more questions  
Than I started with She took me to places  
That I'd never see  
Things have gone my way again  
Now they're just a dream And I'll be her rebound  
If she'd be my love  
I gave in so quickly  
'Cause I was never enough I saw her, she was rising  
But it wasn't for us  
And now I'm falling  
I can see where I was I'm thinking of England  
Yea I think of your smile  
And I think how I broke you  
In my typical style Ephemeral summer  
I'll miss you the most  
Ephemeral summer  
Now I'll walk alone Ephemeral summer  
Too close to the sun  
There won't be another  
I thought you were the one Invisible summer  
But where did you go?  
I know it's getting better  
But time's moving slow And so I wait for the winter  
I'll wait til the end  
Ephemeral summer  
Such a short time you stand I won't hold on to memories  
Forget what I saw  
Girl I'll still remember  
When you walked through that door Now the sky's burning orange  
We fall to the floor  
Now I think I'll go join them  
But I can't take anymore Ephemeral summer  
I'll miss you the most  
My ephemeral summer  
Now I'll walk alone
