Megaslowfade

Lillian Axe

Hailing Big snow above
White the light of day
I cash my soul for fortunes I'm told
Never seem to find the waySlinking through the desert night
Wishing you were here
Waves in the sand never washing my hands
All my friends are hereWhat we don't know still is painfulLifer of an arrogant time
My ways akin to my kind
I live here I live here
Pay your respectsPatient waiting
Velvet painting
Mental upgrade
mega slow fade eating meLightning big storm ahead
Clip the light of day
Watery road with the slip of my wheel
Wash our lives awayHigh above the mountains where the icecaps meet the sun
Why dig low when you can have itVirus detestable kind
Eats up what's in my mind yeah
insatia- insatia- insatiablePatient waiting
Velvet painting
Mental upgrade
mega slow fade eating me(solos)Virus detestable kind
Eats up what's in my mind yeah
insatia- insatia- insatiablePatient waiting
Velvet painting
Mental upgrade
mega slow fade eating me
