

Right Here, Right Now

Kylie Minogue

My desire's getting stronger
I can't hold back any longer
Next to me you belong
Now I'm living for the moment
When you're gonna come on over to me 'Cos I want you to be
Right here, right now
I believe, you were meant to be
Right here, right now
Right here, right now I can't fight the situation
I'm giving in to your temptation
Every time I see your face
I need you more and more
When are you gonna come on over to me 'Cos I want you to be
Right here, right now
I believe, you were meant to be
Right here, right now
Right here, right now 'Cos I want you to be
Right here, right now
I believe, you were meant to be
Right here, right now
Right here, right now 'Cos I want you to be
Right here, right now
'Cos I want you to be Now I'm living for the moment
When you're gonna come over to me 'Cos I want you to be
Right here, right now
I believe, you were meant to be
Right here, right now
Right here, right now 'Cos I want you to be
Right here, right now
I believe, you were meant to be
Right here, right now 'Cos I want you to be
Right here, right now
I believe, you were meant to be
Right here, right now
Right here, right now 'Cos I want you to be
Right here, right now
I believe, you were meant to be
